

The Interface of Chalcogen Chemistry and Biology

Institute of Advanced Biosciences (IAB)

June 30-July 1, 2023, Hiratsuka, Japan

First Circular

Registration:
Send E-mail to
the organizing
committee.

**Registration
fee: Free**

Venue:
Building of
Institute of
Advanced
Biosciences,
Tokai University
Shonan Campus,
Hiratsuka,
Kanagawa,
JAPAN

We are happy to announce the Mini-Symposium of **Interface of Chalcogen Chemistry and Biology**, which will be held on **June 30-July 1 2023** at Tokai University Shonan Campus, Hiratsuka, Kanagawa, Japan, as a satellite meeting of Se2023 (The 9th International Selenium Conference, focused on Selenium in Chemistry, Biology and Medicine) June 26-29th 2023, KAIST, Daejeon, Korea. Shonan Campus is located about 60 km from Tokyo to the southwest. Hotels are located near the train stations. Rooms are also available in International Guest House of Tokai University at the request. Details of accommodations will be announced in due course. To register the symposium, send an e-mail to the organizing committee **before May 10th 2023** with the preference of an oral presentation or just attendance. Registration fee is free.

Tentative Schedule

June 30 (Friday) Registration at the symposium venue (15:00-18:00). Welcome event.

July 1 (Saturday) Main program

Oral presentations (9:00-17:00)

Subjects: Applications of S-, Se-, Te-containing chalcogen compounds to Biology.

July 2 (Sunday) Excursion to Hakone or Kamakura (Option)

Meals are not provided. To join the optional tour, please inform it with registration. The cost will be around 10,000 yen, including lunch, for each person.

Organizing Committee

Chair: Professor Michio Iwaoka

Director of Institute of Advanced Biosciences, Tokai University
E-mail: miwaoka@tokai.ac.jp

Secretary: Junior Associate Professor Kenta Arai

Department of Chemistry, Tokai University
E-mail: k-arai4470@tokai-u.jp
